Statistic Notes:

\* - The real estate industry standard calculation for months of inventory is to divide the current inventory units by the number of units sold in the last 30 days

\*\* - Sales to List Price ratio is calculated by dividing the average sales price into the average list price of the units sold.

This market report provides a summary of the three (3) multiple listing systems in the region where Semonin Realtors currently maintains offices. The **Greater Louisville Area** is primarily Jefferson County Kentucky and immediate surrounding Counties. **Southern Indiana Area** is primarily Clark, Floyd, Harrison and surrounding Indiana counties just north of the Ohio River. **Etown/Ft. Knox Area** is primarily Elizabethtown, Hardin County, Radcliff and surrounding counties south of the Louisville area. Information is deemed reliable but not guaranteed. These statistics include single family homes and condos only.
